Important notice

The following applies to this presentation, the oral presentation of the information in this presentation by Valmet Oyj (“**Valmet**” or the “**Company**”) or any person on behalf of Valmet, and any question-and-answer session that follows the oral presentation (collectively, the “**Information**”). In accessing the Information, you agree to be bound by the following terms and conditions.

Securities laws in the United States and in other jurisdictions restrict Valmet from discussing or disclosing information with respect to the contemplated merger with Neles Corporation (“**Neles**”). Information regarding the contemplated merger can be found at www.valmet.com/merger. Until the completion of the merger Valmet and Neles will carry out their respective businesses as separate and independent companies. The information contained in this presentation concerns only Valmet.

The merger of Valmet and Neles and the merger consideration securities have not been and will not be registered under the U.S. Securities Act of 1933 (the “**U.S. Securities Act**”), and may not be offered, sold or delivered within or into the United States, except pursuant to an applicable exemption of, or in a transaction not subject to, the U.S. Securities Act.

The Information in this presentation is not directed to, or intended for distribution to or use by, any person or entity that is a citizen or resident of, or located in, any locality, state, country or other jurisdiction where such distribution or use would be contrary to law or regulation or which would require any registration or licensing within such jurisdiction and it does not constitute an offer of or an invitation by or on behalf of, Valmet, or any other person, to purchase any securities.

The Information contains forward-looking statements. All statements other than statements of historical fact included in the Information are forward-looking statements. Forward-looking statements give Valmet’s current expectations and projections relating to its financial condition, results of operations, plans, objectives, future performance and business. These statements may include, without limitation, any statements preceded by, followed by or including words such as “target,” “believe,” “expect,” “aim,” “intend,” “may,” “anticipate,” “estimate,” “plan,” “project,” “will,” “can have,” “likely,” “should,” “would,” “could” and other words and terms of similar meaning or the negative thereof. Such forward-looking statements involve known and unknown risks, uncertainties and other important factors beyond Valmet’s control that could cause Valmet’s actual results, performance or achievements to be materially different from the expected results, performance or achievements expressed or implied by such forward-looking statements. Such forward-looking statements are based on numerous assumptions regarding Valmet’s present and future business strategies and the environment in which it will operate in the future.

The Information, including but not limited to forward-looking statements, applies only as of the date of this presentation and is not intended to give any assurances as to future results. Market data used in the Information not attributed to a specific source are estimates of the Company and have not been independently verified. Prospective investors are required to make their own independent investigations and appraisals of the business and financial condition of the Company before taking any investment decision with respect to securities of the Company.

Carbon neutral production

- Valmet's new Climate Program sets credible targets and concrete actions for 2030 for the entire value chain
- Program is aligned with the Paris Climate Agreement's 1.5-degree pathway and UN Sustainable Development Goals and Valmet is in process to send its climate targets for the Science Based Targets Initiative for validation

Main actions to reach targets by 2030

- Target CO₂ emission reductions from supply chain
- Reduce energy usage and use renewable fuels and CO₂ free electricity and district heating in own locations
- Improve energy efficiency of our existing process technology offering by 20%
- Develop existing and new technologies to enable carbon neutral production for our customers

Financial targets

Growth

Net sales for stable business to grow over two times the market growth

Net sales for capital business to exceed market growth

Profitability

Comparable EBITA: 10–12%

ROCE

Comparable return on capital employed (ROCE) before taxes¹: >20%

Dividend policy

Dividend payout at least 50% of net profit

1) Comparable ROCE before taxes = (profit before taxes + interests and other financial expenses +/- items affecting comparability) / (balance sheet total - non-interest-bearing liabilities (average for the period))

Growth and profitability improvement

Recent development at Valmet

Customer

Valmet acquired PMP Group

Valmet's way to serve concept launched for globally-unified services approach

Stronger utilization of Valmet's local presence in areas in sales and projects

Technology

Collaboration project with Metsä Spring to produce fossil free 3D fiber products

Valmet DNA User Interface received well: dozens of projects sold and delivered with new technology

Wider utilization of Industrial Internet applications and remote connections

Process

Good development in project management

Capacity cost reductions

Remote commissioning and start-up of new tissue and board machine installations

ERP renewal proceeding

People

Staying safe, operational and efficient during challenging times in 2020

Record-low LTIF for own employees (1.4) reached in Q2/2021

Several internal training programs established and continuing

Actions to keep growing faster than the market

Net sales growth

Stable business

- Win new customers and increase share of wallet with existing customers
- Grow service sales and multi-year service agreements with project sales
- Add customer value with on-site and remote services
- Continue to develop Field services as a differentiator
- Competitor replacements in Automation
- Grow through new industries in Automation
- Leverage the new Valmet DNA User Interface to win new business in Automation

Capital business

- Benefit from strong favorable megatrends in Board, Tissue, Pulp and Energy
- Continue to bring advanced technology to the market
- Leverage strong R&D for new product innovations
- Continued focus on product cost competitiveness
- Create customer value with digitalization and Industrial Internet

Actions to reach Comparable EBITA target of 10–12%

Comparable EBITA: 10–12%

Actions to reach Comparable EBITA target:

- Grow the stable business
- Focus on improving project management and execution
- Positive margin deviation in capital projects
- Continue to identify savings opportunities in procurement through design-to-cost and supplier relationship management
- Increase flexibility in operations through global footprint development
- R&D and new product launches
- Internal efficiencies through digitalization
- ERP project (from 2023 onwards)

Track record

Stable business net sales (EUR million)

Comparable EBITA margin (%)

Actions to maintain ROCE at target level

Comparable return on capital employed (pre-tax): >20%

Main drivers for ROCE:

- Improvement in Comparable EBITA is the biggest driver for ROCE
- Capital employed has increased due to acquisitions

ROCE at target level in 2020

- Valmet's ROCE of 22% is clearly higher than 2020 peer average of 11%
- Strong balance sheet needed for big projects and swings in market activity

Comparable ROCE (% , before taxes)

Systematically building the future

Continuous renewal and improvement of operational capability

ERP renewal

- ERP renewal was started in 2016 and will be completed in 2023
- Project proceeding well
- Benefits are based on digitalization, process efficiency and IT platform simplification
- Enabler for several other platform renewals
- Savings expected from 2023 onwards

Operational development

- Procurement transformation towards world-class performance continues
- Adding focus on global processes to decrease quality costs
- IT continues modernizing the core platforms to drive business transformation and to accelerate digitalization
- Continue the work on project management culture and effective processes & practices
- New project portfolio management tool for R&D implemented Valmet wide

Procurement and quality cost development

Implemented procurement savings of annual direct spend

Targeting >3% of procurement savings annually

- Increasing design-to-cost (DTC) to create new sources for savings
- More supplier involvement through supplier relationship management
- Continuing sustainable supply chain implementation

Quality costs (% of net sales)

Long-term quality costs goal <1.3% of net sales

- Adding focus on global processes and Global Management System
- Focused quality development projects related to supplier quality, quality assurance and quality control, continuous improvement, audit and risk management

Acquisitions

- Valmet's acquisition strategy is to make selective acquisitions with a clear industrial logic to support organic growth
 - Focus on strengthening services and automation and expanding business in the pulp, paper and energy value chain
- Approximately 50 cases evaluated annually
- Seven acquisitions made since becoming independent company in 2014
- Total investment in acquisitions about EUR 1 billion

Track record of successful acquisitions

Valmet strengthened its business by acquiring PMP Group

Focus on small and medium-sized tissue machines and board and paper machine rebuilds

- PMP Group supplies process technologies and services for tissue, board and paper machines globally
 - New tissue machines
 - Rebuilds and machine sections for paper and board machines
 - Spare parts and services
- Focus on small and medium-sized tissue machines and board and paper machine rebuilds
- The acquisition complements Valmet's offering and builds further our local presence especially in Central Europe and China
 - Widens Valmet's portfolio to small and medium-sized tissue machines
 - Access to new customer and product segments
- Operations in four countries: Poland, China, USA and Italy

Pulp and Energy business line offering

Leading global technology supplier

Pulp

- Chemical pulp mill
 - Woodhandling
 - Cooking and fiberline
 - Pulp drying and baling
 - Chemical recovery
- Mechanical pulping
- Fiberboard defibrator systems
- Industrial Internet and remote support

Biomass conversion

- Pretreatment for bioethanol production
- Black pellets
- Lignin extraction

Energy

- Technology for biomass and municipal and industrial residual waste
- Fluidized bed boilers
 - Modular power plants
 - Gasification
 - Pyrolysis process
 - Industrial Internet and remote support

Emission control

- Power plant flue gas cleaning
- Flue gas heat recovery
- NOx control
- Marine scrubbers

Paper business line offering

- **Stock preparation lines**

- Recycled fiber lines
- Stock preparation systems
- Approach flow systems
- Broke collection and handling

- **Rebuilds**

- Modernization and upgrades for performance improvements

- **Stand-alone products**

- E.g., refiners, screens, pulpers

- **Board and paper production lines**

- Technologies for all board and paper grades
- Technologies for all size of machinery
- Tailor-made board and paper machines
- Modularized board and paper machines

- **Rebuilds**

- Modernizations and grade conversions

- **Stand-alone products**

- E.g., headboxes, sizers, winders

- **Tissue production lines**

- Technologies for all tissue grades and products
- Technologies for all size of machinery
- Conventional, textured and structured tissue production

- **Rebuilds**

- Upgrades for energy, product quality, safety and efficiency improvements

- **Stand-alone products**

- E.g., headboxes, Yankee cylinders, rewinders

Continuous investment in research and development to improve customers' processes

Customers' needs

- Increase production efficiency
- Improve competitiveness
- Maximize value of raw materials
- Widen raw material base
- Provide high-value end products
- Develop new innovations and technologies

Valmet's R&D focus

- Modularized and standardized products
- Energy, water and raw material efficiency
- Automation technology
- Biomass conversion technologies

Valmet's R&D resources

- Own R&D centers and pilot facilities
- Annual R&D spend EUR 75 million (2020)
- Around 1,300 protected inventions
- Cooperation with universities and research institutions

Example of our R&D work – OptiConcept M board and paper machine

- Cost-efficient, high-quality, safe and flexible board making concept
- Significant savings in energy, water and raw material use
 - Energy efficiency improvement up to 30%
- Modular and compact size
 - Short delivery times, quick start-ups, and less production space
- Functional design brings increased safety and accessibility
