Net sales (EUR million)

- Services orders received increased compared with Q2/2014
 - Orders received increased in China, South America and Asia-Pacific, and remained stable compared with Q2/2014 in EMEA and North America
 - Orders received decreased in Mill Improvements, and increased in all other business units
 - Changes in foreign exchange rates¹ increased orders received by approximately EUR 16 million
- Net sales increased compared with Q2/2014

1) Compared with the exchange rates for April–June, 2014

Strong start in Automation

Orders received^{1, 2} (EUR million)

Net sales (EUR million)

- Orders received EUR 95 million in Q2/2015
 - Internal orders received amounted to EUR 10 million
 - EMEA accounted for ~60% and North America for ~20% of orders received
 - Pulp and Paper accounted for ~70% and Energy and Process for ~30% of orders received
- Net sales EUR 79 million in Q2/2015
 - Internal net sales amounted to EUR 11 million

- 1) Q1/2015 orders received is calculated from Metso's reported figures and pro forma figures excluding Process Automation Systems and are therefore indicative only. Q2/2015 figures are Automation business line figures.
- 2) Average quarter has been calculated by dividing 2014 figures by 4 (in 2014, orders received EUR 336 million and net sales EUR 297 million).

Pulp and Energy orders received EUR 259 million, net sales stable

Orders received (EUR million)

Net sales (EUR million)

- Orders received decreased compared with Q2/2014
 - Orders received increased in North America, and decreased in other areas
 - Orders received decreased in both Pulp and Energy
- Net sales remained stable compared with Q2/2014

Paper orders received EUR 129 million, net sales increased

Orders received (EUR million)

Net sales (EUR million)

- Orders received decreased compared with Q2/2014
 - Orders received increased in North America, remained stable compared with Q2/2014 in EMEA, South America and Asia-Pacific, and decreased in China
 - Orders received increased in Tissue, and decreased in Board and Paper
- Net sales increased compared with Q2/2014

Good development in gross profit

Gross profit (EUR million and % of net sales)

SG&A (EUR million and % of net sales)

- Gross profit increased, also when excluding the impact of Automation
- Selling, general & administrative (SG&A) expenses under control
- Further actions to improve gross profit through Must-Win implementation

Development of capacity costs and quality costs

**Capacity costs¹
(EUR million)**

Personnel

**Personnel costs
(EUR million)**

- **EUR 100 million cost competitiveness program successfully implemented in 2013–2014**

- Higher than planned capacity cost savings
- Headcount reduction since Q3/2013 >1,600 employees

- **In 2014–2015, capacity cost will be flat**

- Despite slightly growing headcount and growth investments in some areas

Quality costs (EUR million and % of net sales)

By the end of 2016, quality costs reduced by 50% compared to 2012 baseline

- **Implement Lean**

- Launch Valmet Lean program
- Provide Lean training for a wide group
- Define and set up Lean measurement system
- Each business line and area to have Lean projects

- **Reduce lead times**

- Utilize Value Stream Mapping and Visual Management
- Identify and eliminate waste

- **Reduce quality costs**

- Consolidate quality feedback systems as feasible
- Emphasis on finding root causes and implementing corrective action

1) Capacity cost means total fixed type of own costs which generally do not vary with production levels and which are based on present normal capacity, e.g. wages & salaries, rents & leases, estates & equipment, travel, common functions, telecom expenses, insurances and other outside services

Strategy implementations through Must-Wins

Must-Wins

Customer excellence

Must-Win implementation objectives for 2015

- Strengthen our presence close to customers and growth markets
- Strengthen Key Account Management to enhance growth at the customer
- Drive services growth through long-term agreements and expanded customer base

Leader in technology and innovation

- Improve product cost competitiveness to increase gross profit
- Drive renewal through biotechnology solutions and new offering

Excellence in processes

- Implement Lean to reduce quality costs and lead times
- Save in procurement
- Improve health and safety
- Sales and project management process to improve product margin
- Continue to improve cost competitiveness

Winning team

- Nurture shared values
- Drive high performance
- Continue globalization of our capabilities

Key Must-Win objectives to increase the profitability

Improve project and service margin	Reduce quality costs and lead times	Savings in procurement	Improve product cost competitiveness to increase gross profit
• Harmonization of processes • Localization of competencies • Better selection of sales cases • Development in project management	• Common quality development approach • Quality tools and processes • Highlight the importance of quality initiatives and accountability	• Increase sourcing from cost competitive countries • Increase use of sub-contracting • Consolidation of shipment and warehouse network	• Focus on cost efficient design • Modularity and standardization

Cash flow, net debt, gearing and equity ratio

Cash flow provided by operating activities (EUR million)

Net debt (EUR million) and gearing (%)

Equity to assets ratio (%)

- CAPEX excluding business acquisitions (EUR -9 million) less than depreciation (EUR -15 million)

- Gearing (29%) and net debt (EUR 238 million) increased due to acquisition
- Equity to assets ratio increased from Q1/2015 but decreased from Q2/2014 due to acquisition

Net working capital development

Net working capital and orders received (EUR million)

Net working capital has been on average -9% of rolling 12 months orders received

- Net working capital EUR -265 million, which equals -11% of rolling 12 months orders received
- Net working capital has always been negative
- Single big orders have a significant influence on variation of net working capital

Foreign exchange risk management in Valmet

- All operating units are required to hedge in full their foreign currency exposures
- Hedging takes place when firm commitment arises or at the latest immediately after operating units have reported their monthly currency exposure
- Valmet is not hedging any translation risk arising from subsidiaries' equity
- Intra corporate dividends, loans and deposits shall be hedged when internal decisions have been made
- Treasury acts as an internal bank for subsidiaries and manages corporate wide foreign currency exposure by hedging Corporate level net exposure towards banks

Foreign currency exposure

- The exposure is a net of all assets and liabilities denominated in foreign currencies derived from sales and purchase contracts, projected cash flows and firm commitments
- A 10 percent appreciation or depreciation of EUR against all other currencies would have an effect of, net of taxes, -/+ EUR 1.5 million on EBITA

Split of net sales and costs per currency in 2014

Net sales by currency (2014)

Costs by currency (2014)

- Sales and costs in different currencies fairly balanced
- More costs than sales in EUR, vice versa in USD

Structure of loans and borrowings

Interest-bearing debt EUR 428 million as at June 30, 2015

Amount of outstanding interest-bearing debt (EUR millions)

High volatility in market activity

Orders received¹ (EUR million)

- Volatility in market activity is high in the capital business

1) 2014 actual figures, 2012–2013 carve-out figures, 2009–2011 Metso's Pulp, Paper and Power segment figures

Net sales and profitability development, annual

Net sales and EBITA before NRI (EUR million)¹

- Timing of large projects has had an impact on the level of net sales
- Good stimulus-driven demand in China 2009–2010 supported orders
- The paper machine market has shifted to smaller and lower-cost machines
- In 2013, the power generation market was affected by low-cost shale gas and political and economical uncertainty in Europe
- Profitability improved in 2014 as a result of cost savings

Automation offering

Distributed Control System (DCS) >

- Complete control system platform for several processes: process, machine, drive controls and information management
- Used for monitoring and controlling distributed equipment in process plants and industrial processes

Quality Control System (QCS) >

- A system that controls process quality
- Integrates process quality management, measurements and profilers

Profilers >

- Profilers control the process as part of the QCS system

Analyzers and measurements >

- Equipment that analyzes and helps optimize the process
- Equipment that measures different variables in industrial processes, e.g. consistency in pulp and paper processes

Vision systems >

- High resolution and high speed digital imaging technology, e.g. pulp or paper web inspection and web break analysis system
- The system improves process runnability and end product quality

Performance solutions >

- Advanced process controls for process optimization
- Condition monitoring in paper, power and process plants
- Systems for simulating and analyzing industrial production processes

Market drivers

- Investments in new pulp and paper machines and power plants
- Ageing machines and installed automation systems

Business focus and opportunities

- Customers choose an automation provider even for more than a decade
- High service business content (~45%)
- On Valmet level, full scope offering gives better differentiation from competitors
- Combining Valmet technology, process know-how and automation offers growth possibilities and potential to create new solutions for customers

Process Automation Systems is relatively stable business

- Customers choose an automation provider for as long as a decade
 - During this time, servicing and upgrading is needed
- High service business content (~45%)
- High-level technology and know-how business with high barriers to entry
- Strong focus on R&D ensures a high level of technology, know-how and innovations

- Analyzers and measurements
- Industrial internet solutions
- Automation services
- Process simulators
- Safety systems and solutions

Over 4,500 automation systems and
over 40,000 analyzers and measurements delivered

Comprehensive life-cycle services offering and large customer base with significant potential

Comprehensive life-cycle services offering

Over 2,000 customer mills and plants served globally

Spare and wear parts

- All OEM spare parts and standard parts in Valmet deliveries
- Inventory management services and process parts, such as consumables and auxiliary products

Fabrics

- Paper machinery clothing
- Filter fabrics used in the pulp and paper, mining and chemical industries and power plants for various filtration purposes as well as in commercial laundries

Mill and plant improvements

- Plant upgrades
- Modifications and environmental improvements
- Troubleshooting
- Shutdown maintenance
- Maintenance outsourcing for the entire customer plant

Roll and workshop services

- Maintenance services on rotating equipment: roll covers, spare rolls and roll upgrades
- Rebuilds for all manufacturers' board, tissue, pulp and paper machines
- Workshop services: pressure part manufacturing, boiler component services, parts to protect and enhance boiler performance and fiber equipment refurbishing

Energy and environmental

- Services for evaporation plants, power and recovery boilers, and environmental equipment

Continuous investment in research and development to improve customers' processes

Customers' needs

- Increase production efficiency
- Improve competitiveness
- Maximize value of raw materials
- Widen raw material base
- Provide high-value end products
- Develop new innovations and technologies

Valmet's R&D focus

- Modularized and standardized products
- Energy, water and raw material efficiency
- Automation technology
- Biomass conversion technologies

Valmet's R&D resources

- Own R&D centers and pilot facilities
- Annual R&D spend about EUR 50 million
- Around 1,800 protected innovations
- Cooperation with universities and research institutions

Example of our R&D work - OptiConcept M board and paper machine

- Cost-efficient, high-quality, safe and flexible board making concept
- Significant savings in energy, water and raw material use
 - Energy efficiency improvement up to 30%
- Modular and compact size
 - Short delivery times, quick start-ups, and less production space
- Functional design brings increased safety and accessibility
 - Design acknowledged in Finnish design competition in 2014

Pulp mill market is cyclical and characterized by large orders

Market fluctuates from year to year

Valmet is well prepared for the cyclical nature of the business

- Own capacity has been reduced during the last few years
- Capacity cost reduced 10% in 2014
- Capacity cost to net sales was 24% in 2014

1) Market size based on orders received. Includes all pulp business units, recovery boilers, and evaporation plants

Paper and board consumption growth trends

Paper and board consumption per capita vs. population¹

Population growth in emerging markets is larger than in developed markets

Level of consumption per capita in emerging markets clearly below that in developed markets

This offers us long-term growth potential

Average global consumption: 53 kg per capita

1) Source: PPI Annual Review 2013 (2012 figures)

Demand has shifted more towards smaller paper and board machines

- We are focusing more on modularized and standardized solutions
- Competition is higher in smaller machines

Capacity of start-ups¹, by machine size

Valmet's market share¹, by machine size

Competition is lower in larger machine sizes.

Higher number of players in smaller machines.

Tissue consumption growth trends

Tissue consumption per capita vs. population¹

Average global consumption: 4.5 kg per capita

New products and consumption models based on tissue are helping increase consumption in developed markets

Consumption in emerging markets is still low, but growing

Offers us long-term growth potential in both developed and emerging markets

1) Source: PPI Annual Review 2013 (2012 figures)

Tissue market growing long term

- Recent market reduction due to heavy Chinese investments
- Competition is high in all areas, Valmet is strongest in North America

Historically large spread in pulp prices

Pulp prices, Europe: NBSK and BHKP (USD/ton)

NBSK

Northern bleached softwood kraft pulp is produced mainly in Canada and the Nordic countries. NBSK is based on long fibre wood species. It adds strength to the final product.

BHKP

Bleached hardwood kraft pulp, produced e.g. in Brazil and Indonesia, is based on short fibre wood species. It adds softness to the final product.
